

CAR WIRELESS CHARGING SERIES

Magnetic Car Wireless Charging Holder

Features:

- >Solid adsorption and better heat dissipation
- >No need to remove the phone case to charge
- >The protruding design avoids blocking the camera
- >Fast charging and compatible with more devices

Spec:

Model: CW19S

Input power: 5V/2A 9V/2A

Output power: 15W (MAX)

Conversion efficiency: Slow charge $\geq 70\%$

Fast charge $\geq 75\%$ (in work)

Size: 100*64*29mm

Colour: Gray

Net weight: 73.4G

Material: ABS+PC

W8/W8PRO Wireless Car Charger

Features:

- >Smart alignment coil, charging automatically while put the phone
- >Touch to open, easy for one-hand operation
- >Case friendly, no need to take off the case to charge
- >Built-in super-capacitor, can keep automatic opening and closing for times even after powered off, avoid situations that can't take your mobile

Spec:

Model: W8/W8PRO

Power:15W MAX

Output:5V/1A,9V/1.1A,12V/1.25A

Input:5V/2A,9V/2A,12V/2A(Max)

Support device:devices that support wireless charging

Color:black

Material:Aluminium alloy+ABS+PC+Acrylic+Silicone

W8:Plastic shell

W8PRO:Metal material

15W Magnetic Car Wireless Charger Holder

Features:

- >Upgraded alloys can be used for ten years
- >Ice temperature flash charging
- >Strong magnetic adsorption and LED chase lamp

Spec:

Model: M2PLUS

Interface:Type-C interface

Enter current:5V; 9V; 12V/2A(MAX)

Magnetic compatibility:iPhone15/14/13/12 full series

Product function:Magnet positioning automatic adsorption

Color:Black

Material:ABS+Alloy+Silicone

15W Moving Coil Auto Tracking Wireless Car Charger

Features:

- > Built-in independent coil, automatic tracking precise coil alignment for charging.
- > Stair design, perfect for ip14 series phones without blocking the camera, charging quicker.
- > Easy single hand operation
- > Support 15W max output, fast charging

Spec:

Model: KH16

Port: TypeC

Output: 15W max

Input: 5V2A or 9V/2A

Charging distance: <8mm

Material: ABS+Tempered glass
