## Custom Tents Printed with Your Logo & Branding

A Custom tent is a portable tent widely employed for festivals, advertising booths, events, racing events, and more. It is a type of shelter that comes in varied sizes, such as 10x10ft, 10x15ft, 10x20ft, 5x5ft & 8x8ft. The frames are made out of the finest-quality aluminum material, as it is light in weight and affordable.

The Custom tents are open from all sides. We also offer customized tents based on requirements, either heavy-duty or medium-duty. The fabric that covers the top is made from 600d oxford with PU coating, which is waterproof, flame resistant, and UV-protected. These water & dust-proof tents are ideal for both indoor and outdoor purposes.

The canopy tents are portable, easy to carry and install whenever and wherever needed. These customized tents are a great way to pull the attention of your prospective clients walking by your stand at open corporate conferences or trade shows.

The canopy tents are way different from the custom advertising banners as the former can keep your team and potential customers cool from the hot & humid sun and safe from rain when it is down-pouring. With outdoor tents, your employees will devote all their energy to representing your brand better, without worrying about sunburns.

The custom canopy today is a powerful marketing tool, and we offer complete flexibility of customization to connect with your audience at a deeper level. You can print your company name and logo to the tent. Businesses & marketers have presented the opportunity to proudly market your brand on the roof of the canopy tent, and you can choose whether you want the logo on all sides or front.

## 2. Folding Tent Frames

- The tent frame serves as a support for the tent, which provides the shape and structure. The frame is adjustable to change the height of the tent. We mainly have two frames:

**Popular Frame:** The leg (hex tube) diameter is 40mm and tube wall thickness of 1.2mm. It is of good quality aluminum structure with ABS material connectors and steel feet. Get the tent frame available for 5x5ft, 8x8ft, 10x10ft, 10x15ft, or 10x20ft.

**Premium Frame:** Leg (hex tube) diameter is 50mm, and tube wall thickness is 2mm. Aluminum structures and connectors with steel feet. It is of premium quality and is good in the windy weather. Get the premium frame available for 10x10ft, 10x15ft, 10x20ft, 13x13ft, 13x20ft, 13x26ft, or 20x20ft.

### 3. Custom Tent Fabric

The fabrics of these canopies are made of a 600d oxford material with PU coating. The quality of the material is long-lasting, preventing easy tearing or scratching of the tent.

- The full coverage is PU coated for waterproof protection, and provides resistance to flame, wind, and rain. It is designed to be placed outdoors in any weather.
- The PU coated fabric provides added protection against the changing UV rays.
- The standard width of the 600d oxford material is 1.5m/5ft.
- The maximum width of the fabric which can be bought is 240cm/95 inches with a seamless roof and walls.
- Graphics can be fully and completely printed on the fabric.

### 4. Roof

The roof is 600d oxford material fabric which is dye sublimed. We offer a full-color print of the roof fabric for the tent.

### 5. Valance

The valances are the straight fabric found at the end of the tent. The valance also comes with buckles in the middle which are not directly sown on the valance. The buckles and Velcro help the roof to be stable and sturdy fixed on the frame.

These custom canopies provide excellent shade during outdoor events, and the user-friendly design ensures the pop up canopy is easy and quick to set up. The legs snap presents you the freedom to adjust to a variety of heights.

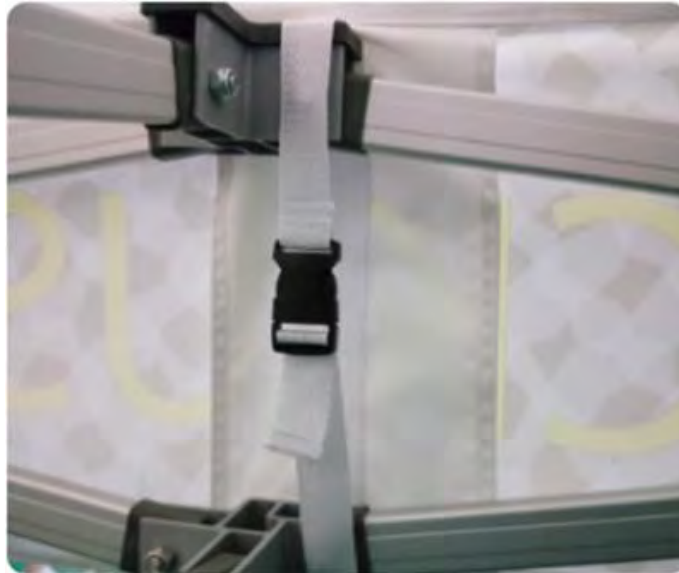

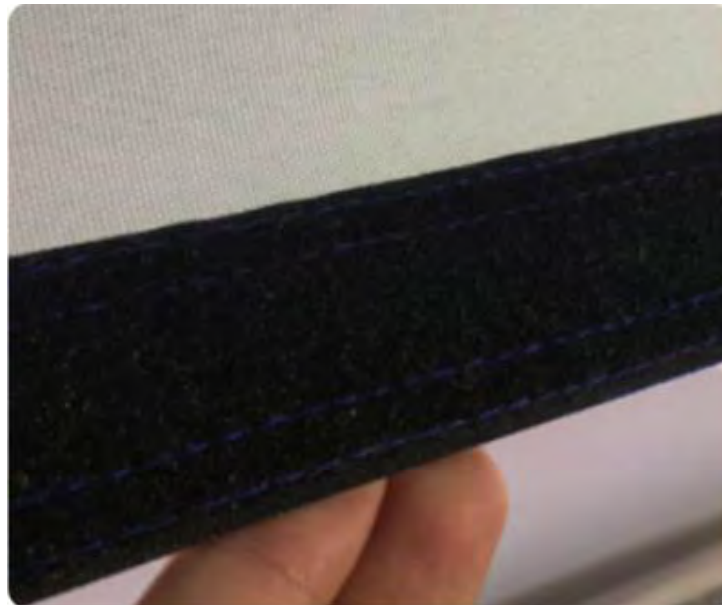

**Global Traders:** Operators of the Unconventional Inventory Liquidation Marketplace [FreeWorldImports.com](https://freeworldimports.com)

---

The valance comes with a loop Velcro that is sewn in the corners. While attaching the valance to the frame, the stick on the hook Velcro is wrapped around the legs to assure a strong structure. The loop Velcro is found on the valance and hook Velcro is on the tent frame leg.

The valance also comes with buckles in the middle which are not directly sewn on the valance. The buckles and Velcro help the roof to be stable and sturdy fixed on the frame.

At the bottom of the valance, a 2-inches wide loop Velcro strip is sewn (double stitched) enabling wall connections between the walls and roof.

## 6. Full Wall & Half Wall

- The standard wall material provided with the custom tent is waterproof made from 600d oxford material. Normal wall is single sided printing , but we also can do double sided walls, Print two single sided wall , then sew back to back .Cost also double
- Another material that can be used as walls is the mesh polyester which is see-through and allows wind to blow through. We offer this option for tents which can be best used in hot summers.

- The maximum height offered is 215cm. It is better to half shorter walls for better work experience. A 2" wide hook Velcro is sewn on the top of the full wall to allow connection with the tent valance for a sturdy structure. In addition, a Velcro hook is sewn at the side edges of the walls so that it can be tied to the frame legs offering anti-wind protection. At the side edges, there are zippers sewn so that the full walls can stay connected.

Half-wall – The half-wall comes with a rail kit. The rail sleeve at the top of the half-wall allows the rail to go through and can be hung on the wall.

## 7. Accessories

**Roller Bag**

The wheel bag is part of the tent package where the tent can be stored for easy transportation.

**Sand Bag**

The anti-wind tent comes with sand-bags wrapped around the tent leg for more weight.

**Rain Gutter**

During rainy days, the rain gutter can be used to collect rainwater. This is only applicable when two tents are set up and connected.

**Water Tank**

The empty tank is light in weight, but can act as a foot weight when filled with water.

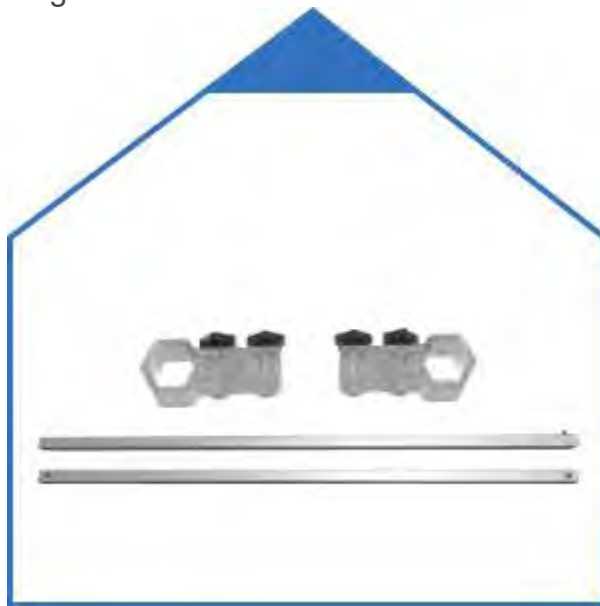

**Foot Weight**

The foot weight of the canopy tent is made out of steel. The foot weight on the tent legs gives strength to the tent to withstand windy weather. The average sizes available are 7Kg, 10Kg, and 15Kg.

**Front Awning**

If you want to safeguard your visitor at a trade show or any other event on a rainy afternoon then considers installing a front awning.

**Half Wall Bar and Clamp**

It supports the half wall of your custom wall

**Pegs And Ropes**

The pegs and ropes present stability to the tent so that they can stand severe weather conditions.

**Tents Connectors**

It connects two custom tent legs to make them stable and together.

## 8. Wall Collocation

- From A – O, we offer several wall groups to meet your specific requirements.

**Custom Canopy**

**Custom Canopy Back Wall**

## Artwork & Mock-Up Design

For most projects, we send templates to customers, the customer can design the artworks according to the templates which they are provided, If the customer does not have a professional designer, FWB and its supplier also can offer design service, we able to make a mock-up to show how the booth will look before going into production.

## Build Your Trade Show Tent Booth

When you plan to build an outdoor trade show booth, FWB and its supplier offers a range of outdoor displays for sections, such as feather flags with tent mount, teardrop flags, water-proof tablecloth, Pop-out banners, roll up banners, etc. You can choose these products to build your booth according to your ideas.

**FWI LIQUIDATION MARKETPLACE AFFILIATE PROGRAM**

Become an **ONLINE INVENTORY LIQUIDATOR** using the FWI link based model which enable you to create links to any product within the FWI Marketplace. You have the ability to share these links with potential customers via email, social media and other digital mediums. You will **earn between two to five percent (2% - 5%) commission on the sales of products** which are sold based on your efforts. These links contains identifiers that will ensure that you receive compensation when a purchase is made on a linked item containing your identifier. There are no charges associated with this groundbreaking business opportunity, your participation will not cost you a dime, it is completely free of charge.
