## VEHICLE TECHNICAL DETAILS

### 1.0 Introduction

Armoured Toyota Land Cruiser 200 is a perfect combination of four-wheel drive vehicle suitable to the most hazardous working conditions and with high performance and all-around armour vehicle shell providing all-around crew ballistic protection against standard ammunition and against personnel mines and hand grenades.

The armoured vehicle is protected in discreet manner that doesn't have any impact on outside appearance of vehicle using „shell-in-shell“ technology. (for more see below article - Body armouring) The “shell-in-the-shell” technology is the major quality criteria for all prestigious car manufacturers that carry out car armouring. We have adopted this technology and we have developed an armoured shell which is integrated into the original body shell, fully welded into the sides, front and rear of the passenger compartment.

### 2.1 Technical features of vehicles

<b>Type:</b>	Toyota Land Cruiser 200, diesel
<b>Engine: Layout:</b>	4,461cc, 8 cylinder, 32-valve DOHC
