## **PRODUCT DESCRIPTION**

Are you with us when we say we LOVE Shea butter? It's such a luxurious, versatile and multi-functional natural ingredient that is known for its moisturizing, anti-inflammatory, and healing properties.

### **Where does it come from and is it sustainable?**

Shea butter is a fat that is extracted from the nuts of the Karite tree also called the Shea tree or African butter tree. This tree is native to the West African savannah, and it is found in countries such as Ghana, Burkina Faso, Mali, Ivory Coast, and Nigeria.

The production of Shea butter is an important source of income for these communities, as well as a way to empower women and promote gender equality

The production of Shea butter is also environmentally sustainable. The Shea tree is drought-resistant, and it can grow in poor soil conditions, making it a valuable resource for communities in arid regions. The Shea tree is also important for the local ecosystem, providing shade and shelter for other plants and animals.

Shea Butter is therefore a hugely valuable commodity. It is highly valued in skincare and haircare and helps the communities where it comes from to build sustainable economies whilst at the same time offering benefits to the wider world ecosystem.

### **Shea Butter – A Golden Opportunity**

Shea Butter is a natural fat extracted from the nuts of the Shea tree, scientifically known as *Vitellaria paradoxa*. It has a creamy consistency at room temperature and is widely used in the **cosmetic, pharmaceutical, and culinary industries** for its numerous benefits.

### **Use Cases:**

- **Cosmetics:** Shea butter is a key ingredient in skincare products due to its moisturizing and anti-inflammatory properties.
- **Medicinal:** It's used for its healing properties, aiding in the treatment of skin conditions and pain relief.
- **Culinary:** Shea butter is used in many West African cuisines.
- **Candles and Soaps:** It's used in candle and soap making.

---

- **Haircare:** Shea butter is popular in hair products for its ability to nourish and condition hair.

### **Harvesting in Ghana:**

Shea butter is largely harvested in the northern region of Ghana, with regions like North, Savannah, and Upper being notable production areas.

### **Potentials in International Trade:**

Shea butter presents great potential in international trade, as the demand for natural, sustainable products continues to grow. Its uses in cosmetics and personal care products have made it a sought-after commodity.

### **Markets:**

Major markets for pure unrefined Shea butter include the United States, Europe, and Asia, where it's used in various products. FreeWorld Brand, LLC and its Ghanaian supplier (SABER HOLDINGS, LIMITED) have tapped into these markets with the high-quality unrefined Shea butter that is being produced.

The future looks promising, with increasing global awareness of sustainable and natural products. FreeWorld Brand, LLC intend capitalizes on this trend, by providing our customers with best quality Shea Butter courtesy of our Ghanaian supplier.
